

## **JCP&L Tree Trimming in January 2022 – List of Streets**

JCP&L works with municipalities to proactively inform them of vegetation management schedules. In addition, customers living in areas along company rights-of-way are notified prior to work being performed. To further decrease tree-related outages, JCP&L's foresters also are working to educate residents who live near company equipment about the importance of properly maintaining the trees on their own property. Here is a list of roads that they will be trimming over the next two weeks. Millstone Road will be included in the group of streets being trimmed in January 2022.
