**ENGINEERING FOR KIDS: Grades 3-5 Elementary School**

Tuesdays 10/11,10/18,10/25,11/1,11/15

3:35-4:35 Room 109 \$125

Minecraft: Travel into the future. This camp will immerse students in the expansive world of Minecraft, and will challenge students ingenuity and problem solving skills as they navigate through several engineering challenges. Students will learn how to use teamwork and manage resources like an engineer in the real world. Building in Minecraft allows students to experiment with designs and materials, all without the risks associated with building structures in reality.

**GILRS ON THE RUN: Grades 3-5 Elementary School**

Mondays & Wednesdays 9/12-11/21 3:35-4:50pm Room 211

\$150

Girls on the run is a transformational learning program for girls in grades 3-5. We teach life skills through dynamic, conversation-based lessons and running games. The program culminates with the girls being physically and emotionally prepared to complete a 5K running event. The goal of the program is to unleash confidence through accomplishment while establishing a lifetime appreciation of health and fitness. Designed to allow every girls to recognize her inner strength, the Girls on the Run curriculum inspires girls to define their lives on their own terms. Throughout the season, the girls make new friends, build their inner confidence and celebrate all that makes them unique. **Girls will participate in the Girls on the Run 5K on November 20th in Sommerville. It is open to the public and families are encouraged to run. Registration fee for the race is \$25, information on registering will be sent via email. Register at <https://www.raceplanner.com/register/index/GOTR-CNJ-Fall2016-program> by September 10th.**

**BRICKS 4 KIDZ: Grades K-2 Primary School**

Wednesdays 10/5-11/16 (off 10/12) 3:45-4:45 Room E100 \$80

Gadgets & Gizmos: Students love our interactive Bricks 4 Kidz models. This unit is all about the fun of doing something with what you've built. From a spinning top to a spin art model, kids will love playing with their creations! But don't worry, we sneak in lots of learning too, understanding probability in the 3-in-a-row game model and learning about friction and symmetry with the spinning top lesson. Don't miss out!
