**\*\* REMINDER TO ALL RESIDENTS \*\***

**Township Code Book Chapter 3,  
Police Regulations, Section 3-26  
Manufacturing, Selling,  
Transporting or Using Fireworks**

“Any person who shall manufacture, sell, transport or use fireworks, or permit the use of fireworks on premises under ones ownership or control, shall be adjudged in violation of this chapter. “Fireworks,” as used herein, shall include any combustible or explosive composition, or any substance or combination of substances, or article prepared for the purpose of producing a visible or an audible effect by combustion, explosion, deflagration or detonation. Persons having ownership or control of premises at which fireworks have been used in violation of this subsection shall give rise to a rebuttable presumption to having permitted the use of fireworks on such premises. Such presumption may be rebutted by submitting evidence that such person took affirmative action to stop or prevent such use, or was not physically at or in close proximity to the premises at any time during such use. It shall be a defense to a charge hereunder if the person shall have been issued a permit by written resolution of the Township Committee pursuant to the provisions of the State Fire Prevention Code.”

Any person who shall violate any provisions of this Code shall upon conviction thereof, be punishable by one or more of the following: a fine not exceeding \$2,000.00 or imprisonment for a period not exceeding 90 days or community service not exceeding 90 days or a combination of the above.

**Municipal Alliance Seeks  
Community Survey Input**

The Millstone Township Municipal Alliance to Prevent Alcoholism and Drug Abuse is cooperating with the Monmouth County Office of Addiction Services to complete a community assessment to determine future plans for addressing the issue of alcohol and drug use. The county has developed a brief questionnaire that residents are asked to complete and mail back to the Municipal Alliance.

The questionnaire is anonymous and should only take a few minutes to complete, but it is extremely important for determining what programs and services the alliance should seek funding for.

The questionnaire is included in this newsletter and also circulated through various community organizations and copies are available at the Municipal Building as well. We are hoping to have all questionnaires returned for evaluation by the end of July.

For more information about the Municipal Alliance or for information about a drug or alcohol problem, call 732-462-4770, ext. 40. Your support of our efforts is greatly appreciated!

## MONMOUTH COUNTY BOARD OF HEALTH – MOLD BASICS

As New Jersey continues to rebuild from Superstorm Sandy, the New Jersey Department of Health has partnered with state, local, and federal partners to develop a pamphlet to guide New Jersey homeowners on mold and mold remediation. Molds are found in virtually every environment and can be detected, indoors and outdoors, year round. Mold growth is encouraged by warm and humid conditions. Outdoors they can be found in shady, damp areas or places where leaves or other vegetation is decomposing. Indoors they can be found where humidity levels are high, such as basements or showers. Although molds are common in our environment, mold may become a problem when it grows inside homes. These guidelines were developed to better inform homeowners on how to ensure their homes are cleaned and remediated properly to avoid mold problems now and in the future. Molds can cause staining of walls and ceilings and can affect building components causing property damage. Exposure to mold can cause nasal and throat irritation, coughing or wheezing, eye irritation, or, in some cases, skin irritation.

The pamphlet addresses a number of topics including mold-related health concerns, how to inspect for mold and tools and techniques for clean-up. For example:

- If mold is visually apparent, resources should be used to correct any moisture problems and clean up mold contamination rather than testing
- For smaller areas less than 10 square feet that have been affected by mold growth, a homeowner or business owner may be capable of performing the work, but for larger areas greater than 100 square feet, a qualified contractor who has experience in mold or environmental contamination may be required.
- Those performing remediation work need to be protected with gloves, a respirator, protective clothing and goggles.

The pamphlet also includes checklists on inspection services and mold remediation to help guide residents in steps they should take when addressing mold problems in their home. The guidance also contains tips and questions to ask when hiring a consultant or remediation contractor that will help residents evaluate these professionals.

Residents can receive copies of the pamphlet by calling the Monmouth County Health Department at 732-431-7456 or visit the Monmouth County Health Department website at [http://nj.gov/health/er/hurricane\\_recovery\\_resources.shtml](http://nj.gov/health/er/hurricane_recovery_resources.shtml).
